Figure 1 is a line graph illustrating the percentage of the total sample for various age groups across different years. The y-axis represents the percentage of the total sample, ranging from 0 to 100. The x-axis represents the years, with labels for 1980, 1990, 2000, 2010, and 2020. The age groups are represented by different colored lines: 0-14 (blue), 15-24 (orange), 25-34 (green), 35-44 (red), 45-54 (purple), 55-64 (brown), 65-74 (pink), and 75+ (grey). The graph shows a general trend of decreasing percentages for younger age groups and increasing percentages for older age groups over time.
