

This detailed map of the Limoges region illustrates the Garonne river and its tributaries, along with a network of roads and administrative boundaries. Key features include:

- Geographical Features:** The Garonne river flows through the center, with numerous tributaries like the Vienne and Dordogne. The map shows various elevation points and place names throughout the region.
- Administrative Boundaries:** Different areas are demarcated by colored lines and patterns, including orange hatched areas and blue wavy lines.
- Infrastructure:** Major roads and highways are clearly marked, along with a compass rose in the top left corner.
- Specific Area Codes:** Numerous codes are scattered across the map, such as EL7-8701222, AC4-8701293, and TS-8701204, likely representing specific administrative or planning zones.
